Dr. Kane's Expedition Returned!—All in good health!!
New York, Oct. 11, 1855.

Dr. Kane and his party composing the Arctic Exploring Expedition, arrived today; they are all well. The propeller Arctic and the bark Release of the Exploring party sent out to search for Kane, of the missing Arctic expedition returned this evening, having Commander Kane and party on board. The propeller and bark made their way north in Smith's Sound up to latitude 79 degrees 30 min., when they were stopped by ice. Working their way to the shore, they discovered an Indian village, and learned from the inhabitants that Dr. Kane and party had gone south. They then returned to Disco island, where they found Dr. Kane and the other expeditionists.

Dr. Kane had pushed his vessel, the Rescue, as far north as latitude 81 deg., where they were frozen in. They remained by her all winter, sending to the Indian villages for provisions. In the spring the party abandoned the ship, and made their way southward in sleds to Upper Navick, from which place they were conveyed in a Danish vessel to the island of Disco, where they were found by the searching Expedition. Three of Dr. Kane's Expedition had died, and the remainder were more or less frost bitten. The last winter was intensely severe in the Arctic regions, and many of the natives perished through exposure and starvation.

No traces whatever had been discovered of Sir John Franklin.

ONE WEEK LATER FROM EUROPE.

ARRIVAL OF THE CANADA.

NEW YORK, Oct. 9.—The steamer Canada from Liverpool, with European dates to Saturday, the 29th, arrived at 7 1/2 o'clock this evening.

The steamship Hermann arrived out on the 24th. ultimo.

The latest news from the Crimea is that Gortschakoff telegraphed on the 23d ult. that the Allies landed 20,000 men at Eupatoria and that 30,000 men were on the Russian flank. The Allies attacked the Russian Infantry, on the 22d of September, when the latter retreated.

On the 25th ult., the Allies, 33,000 strong, debouched from Eupatoria, and occupied the neighboring villages on the left flank of the Russians.

The Russians were fortifying the north side of Sebastopol and constructing new batteries. The French were advancing their Cavalry and Infantry towards Bakhchizersi.

A fearful tempest had occurred at Sevastopol, followed by heavy rains. Sebastopol is to be raised, and the basins to be filled up.

The allies on the 17th were concentrating their forces between Balaklava and Tchernaya, and were constantly reconnoitering.

The left wing of the Russian army were actively preparing for an active campaign. Four hundred deserters, mostly Poles, had arrived in the allied camp.

It is reported that the demoralization of the Russian army is complete, and such was the confusion from the first moment of the assault of the allies upon Sevastopol, that the soldiers became exhausted through fatigue, having remained 24 hours without sustenance.

The loss of the Russians during the bombardment and assault, is estimated at 18,000 men.

The Russians continue to throw fire-shells into Sevastopol, from the north side. Some of the guns send shot entirely over the town, doing much damage to the advanced siege works of the allies.

A letter from Berlin states that Prince Gortschakoff will shortly evacuate the forts on the north side of Sevastopol, but the Russians are still making vast preparations for a winter campaign.

LIVERPOOL, Sept. 23.—Cotton has declined 1/2; New Orleans fair is quoted at 7 1/2; New Orleans Middling 6 1/2; Upland fair 6 1/2; Upland Middling 5 1/2. The sales of the week have been 36,000 bales.

The newspaper reports furnish the following quotations: White Wheat 12 1/2s; 6d; red Wheat 11s. 9d; Flour—Western Canal Flour 39@42s; Philadelphia and Baltimore 40@42s; Ohio 42@44s.

Corn—White Corn 42 1/2s; yellow 40 1/2s; mixed 40 1/2s 4d.

The coffee market is firm with a good demand.

Lard has advanced 3s@5s, and the stock in first hands is exhausted; sales are reported at 63s.

LONDON, Sept. 23.—The Russian treasury has received large sums through Berlin.

The Turkish troops at Constantinople, intended for Asia, have been sent to Eupatoria. It is reported that large bodies of French troops have been landed at Upatoria.

Despatches received from Vienna, state that Kars is greatly strengthened for provisions, and the garrisons are actually subsisting on horse flesh.

Pork has slightly advanced.

Bacon—The high prices previously given are still maintained, and the stock on hand is much reduced.

The Russians have abandoned Enzeroum.

Most of The Baltic fleet is to winter at Kiel.

DENMARK.

Representatives in session at Copenhagen have definitely approved by ten majority, all the proposed constitutional changes.

NAPLES.

An official circular issued by the Government of Naples to the Police, says that Mazza has retired from office, but the policy of the government has undergone a change in the conduct of the Police towards politically suspected persons.

WONDERFUL SUCCESS.—Less than two years since, Prof. Wood opened his store for the manufacture and sale of his preparations, and particularly his wonderful Hair Restorative, and by patient perseverance, relying upon the perfect character of his preparations to accomplish the objects intended in getting them up, his business has enlarged, until, without the ordinary means of traveling agents, his preparations are found upon the shelves of almost all druggists and medicine dealers in the United States, Canada, and West India Islands. Nor is this result surprising, since his preparations have been used by all classes, old and young; gentlemen and ladies of the highest intelligence in all parts of the country, testify to their perfect character when thoroughly tested, and no one can read his discovery without being convinced this is indeed a discovery worthy of the name. It is the surprising fact that the history of the world furnishes no parallel to his success. His store on Market-street, at 114, is filled, not only with the most popular patent medicines, but an immense and beautiful stock of perfumery, fancy and toilet articles, both foreign and domestic, and we advise all to examine the stock before purchasing elsewhere. He also has a splendid establishment 316 Broadway, New York, for the supply of his immense trade. See advertisement of Mr. Adams' Liver Balm, and his advice to the sick everywhere. In another column. —[St. Louis Evening Mirror, March 11, 1855.]

SOMETHING WORTH LOOKING AT.

Prof. Wood's Hair Restorative.

THE preparation, although less than two years before the public, owing to its wonderful effects upon the human hair and scalp, has already obtained a celebrity and sale perfectly unparalleled. It has, without the ordinary appliances for such purposes, won its way, & been heartily welcomed to most of the cities and towns in the United States, the Canada and the West India Islands. Nor is this result surprising, when it is remembered that its popularity is based upon its merits solely, as established by actual tests. That this preparation will actually restore gray hair to its natural color, produce a luxuriant growth upon the heads of the bald, prevent the hair from falling off, and, when used as a toilet article, produce a continual flow of the natural fluids, and thus renders the hair soft, glossy and wavy, destroys diseases of the scalp, and expels dandruff, the certificates of distinguished gentlemen and ladies in every part of the country, who have tried it, and therefore know what they know, most fully attest. That by proper use of this Restorative the hair can be made to retain its natural color to almost any age allotted to humanity, by removing the cause of disease from the scalp—no matter how long standing—the concurrent testimonials of the Press, and the certificates of the numerous respectable individuals of both sexes, leave no doubt. Circulars containing full particulars relative to the curative, as well as recommendations of editors, and certificates before alluded to, can be had of all the agents.

BROOKFIELD, Mass., January 12, 1855.—Prof. Wood—Dear Sir: Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from childhood, & has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit. Yours truly, J. K. BRAGG. Pastor of the Orthodox Church, Brookfield.

St. Louis, March 7, 1854.—Prof. Wood—Dear Sir: My hair commenced falling off some three or four years since, and continued to do so until it became quite bald. I tried all the popular remedies of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am very happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted. A. C. WILLIAMS, 133 2d street.

CLEVELAND, Ill., June 28, 1852.—I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and has no doubt permanently so. S. BAXTER, Ex-Senator, United States. 114 Market Street, St. Louis, Mo., March 8, 1855.

Dear Sir: I am doing an extensive travel in the West and South Western States as a General Agent for Adams' American Liniment, and would be glad if you would favor me with a consignment of Prof. Wood's Hair Restorative, as I feel assured that I can introduce in many places where it is not known, as my own testimony. I tried all the popular remedies of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am very happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted. A. C. WILLIAMS, 133 2d street.

Very respectfully, WM. B. BROOME. Prepared and sold at 114 Market Street, between 4th and 5th streets, St. Louis, Missouri, and 315 Broadway, New York. Sold Wholesale and Retail at Proprietor's prices, by J. D. PARK, Cincinnati, and KAUFFMAN & Co., Lancaster, Ohio. October 4, 1855—1w22
